

WIND DIRECTION INDICATOR WINDSOCKS

01. DESCRIPTION

Our windsocks are in compliance with the international civil aviation rules. The windsocks are manufactured in France with a high quality fabric, qualified with 160g/m². With a specific U.V treatment the color fastness is warranted.

They offer high resistance to the weather and to the sun. The standard colors available are white, red, orange, yellow and black.

Your logo can be added.

02. MODELES

REFERENCE	DIMENSIONS	COLOUR
DBM-SE-30-120-RB	30 x 120 cm	Red and white
