## MINI PORTABLE BEACONS

EMERGENCY CLOSING OF RUNWAYS, TAXIWAYS AND SERVICE AREAS

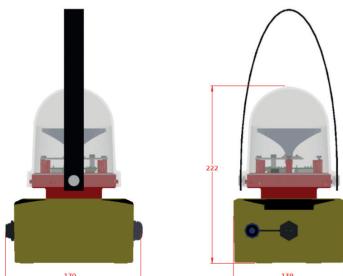

### 01. DESCRIPTION

The **MINI** portable beacon range is designed for emergency marking of work zones. Very lightweight and easy to handle, they include two batteries and use multi-LED technology. With a lifetime of over 10 years, they require no maintenance and feature a blinking light to indicate low battery level. Available in bi-color versions, they can be recharged using an external multi-charging case designed for 8 beacons

### 02. MODELS

REFERENCE	COLOR	BATTERY	AUTONOMY
BPMLBIAR2	Red	2 x 12V 1,2 Ah	40h
BPMLBIAW2	White	2 x 12V 1,2 Ah	20h
BPMLBIAR/B2	Red OR Blue	2 x 12V 1,2 Ah	40h
BPMLBIARV2	180° Red + 180° Green	2 x 12V 1,2 Ah	40h

#### • DIMENSIONS

### 03. CHARACTERISTICS

#### LUMINOUS

Horizontal / Vertical beam 360° / 10°

Luminous intensity > 10 cd

MTBF 100,000 hours

#### ELECTRICAL

Voltage 110 to 240V AC

Operating Temperature -10°C to +55°C

Autonomy 40 hours (2 batteries)

Battery AGM 12V 1,2Ah

#### MECHANICAL

Body material Aluminum

Lens material Polycarbonate

Height (Weight) 222 mm (2.5 kg)

#### ENVIRONMENTAL

Humidity 100%

Frost -60°C

Protection class IP66

#### CERTIFICATIONS

CE EN60947-1 ; CEI60364, NF C15-100  
2014 / 35 / UE

ICAO Annex 14, Volume I, Chapter 6

Quality ISO 9001 : 2015
